

STAS minirail

sleek and strong

STAS minirail is characterised by its extremely slim, narrow design and innovative mounting method.

The rail itself is just 16 mm in height, yet it can carry up to 25 kg per linear metre. Thanks to an innovative screw, the STAS clipscrew, the rail can easily be fixed to the wall.

STAS minirail is perfect for creating an elegant, unobtrusive hanging system for light to medium-weight objects.
