

**RENEWED DESIGN**

# STAS plasterrail for the forward thinker

**PATENT PENDING**

STAS has renewed the design of the STAS plasterrail! The STAS plasterrail is now even better in quality with its renewed design. You attach the aluminium rail to a bare wall with nails and after the rail and the rest of the wall have been plastered, a very narrow opening remains visible in the stucco. As a result, this picture hanging system can be fully integrated into a new wall to be plastered and is therefore virtually invisible.

The renewed design ensures flawless installation, requires only a thin plaster layer of +/- 6 mm and the supplied safety strip ensures that the picture hanging system remains free of stucco. An ideal picture hanging system for renovations and new construction projects!

## Features

Dimensions	6,4 x 40 mm
Layer thickness stucco	6 mm
Length	200 cm
Material	aluminium
Installation	wall mountable, to be integrated into stucco
Weight capacity	15 kg/m
Warranty	5 years
